In-Home Pet Care

723-L  VE
- 5 6 8 3

You love your pets. Wouldn't you like to give them the same loving care when you're away from home? Now it's easy, with one call to **Pet Huggers**, the low-cost service that cares for your pets and home when you can't be there. >>>

Pet Huggers loves your pets in your home

Pet Huggers feeds, walks and plays with your pets, once or twice a day. Your pets get all the things they're used to: the same food, the same exercise, the same places to walk. And they stay in the most comfortable place of all: their own home.

We're pet owners, just like you. So we know how to keep your pets happy and healthy while you're gone, even if your pets need special medicines or foods.

But Pet Huggers takes care of more than pets

Pet Huggers also looks after your home. We run your sprinklers, and water your indoor plants. We take in your mail and newspapers, and take out your trash. And we keep your home looking "lived in," by randomly adjusting drapes and lighting.

And if there's a small problem with your home – a plumbing leak, broken glass, etc. – Pet Huggers will help get it solved quickly – before it becomes a big problem.

Having some work done on your home while you're away? Pet Huggers can be your "eyes and ears," checking on the progress at regular intervals.

In fact, Pet Huggers takes care of your home so completely, you might call us even if you don't have pets at all. That's why we offer a special low rate for "no pets" service.

And Pet Huggers always keeps in touch

We offer, at no charge, the "HuggerLine" service. If you have an answering machine that you can access by remote control, we'll gladly leave a daily message on it. We'll let you know how your pets and home are doing in your absence.

Trust Pet Huggers to do the job right

Pet Huggers is run by mature, responsible AV homeowners just like you. All work is done by the owners – no one else enters your home. And, of course, Pet Huggers is licensed, bonded and fully insured for your protection.

Questions & Answers

Why should I trust my pets to Pet Huggers instead of a kennel? Kennels are unfamiliar places that can frighten many pets. Pet Huggers cares for your pets in their own home, where they feel more secure. And no kennel gives you the extra services you get from Pet Huggers, like watering your plants and lawn.

Can't I just ask a neighbor to do this for me? You could, but to match all the services you get from Pet Huggers – pet care, home security, plant maintenance, lawn watering, mail and paper pickup – you'd be imposing a great deal. And Pet Huggers' service is guaranteed reliable. Taking care of your pets and home is our job.

Isn't this too costly? Not really! Putting just two pets in a kennel costs you more than a visit from Pet Huggers! Moreover, your pets don't get our personalized attention. And your home *gets no attention at all!*

FREE consultation

Before you leave, Pet Huggers will visit you at no charge. We'll meet your pets and let them meet us. We'll learn about their routine, about their food, and about the games they like to play.

We'll also ask about plant and lawn watering and get some local emergency contacts and your itinerary.

Then you can relax and enjoy your trip, because your pets and home are safe in the loving hands of Pet Huggers.

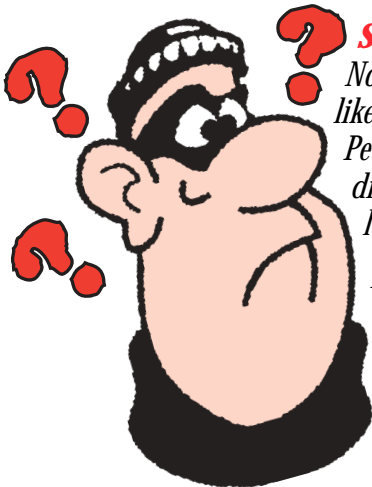

We're "home huggers," too:

Watering your lawn and plants, taking out the trash, taking in mail and papers – Pet Huggers loves your home as well as your pets.

Pet and Home Care When You're Not There!

Give your dog a phone:

Our HuggerLine lets you check up on us most anytime. It's almost like being able to call your pets in person.

Show burglars the light:

Nothing attracts a break-in like an empty-looking house. Pet Huggers adjust lights and drapes to make your home look "lived-in."

For a very small extra charge, our NiteLite service changes the lighting all evening long.
